

Quality Policy

A Quality Management System has been identified as a key priority to assist in the achievement of Murphy Pipe and Civil Group's business objectives.

As a consequence, Murphy Pipe and Civil Group is implementing the following key initiatives:

In order to demonstrate this, Murphy Pipe and Civil group is committed to:

- Fostering a "quality culture" within Murphy Pipe and Civil Group focusing on a systematic approach to continuous improvement, and development of our construction business and services.'
- Meeting and exceeding all stakeholders quality expectations
- Maintaining these quality expectations throughout our business
- Increased opportunities for key stakeholders to provide feedback

In order to reach these goals, Murphy Pipe and Civil Group has set the following corporate quality objectives:

- To implement, maintain and continuously improve a quality system which forms a practical basis for Murphy Pipe and Civil Group to achieve its quality objectives and meets the requirements of ISO 9001:2008

- To maintain certification to that standard
- To periodically review compliance and progress against quality objectives and make improvements when practicable

Murphy Pipe and Civil Group recognises that Quality is the responsibility of each employee. In order for Murphy Pipe and Civil Group to achieve its organisational Quality objectives, it will ensure that every staff is made aware of the company's commitment to Quality as part of their induction.
